PATIENT NOTICE

Please read all of this notice

Please take your time to read the following questions:

1. Do you have any new symptoms of COVID-19? These may include:
   - New continuous cough
   - Loss of taste and/or smell
   - A fever
2. Are you waiting for results from a COVID-19 test?

If the answer to Q1 or Q2 is yes please go immediately to reception and let them know. You must then go home and follow national guidelines for testing and isolation. This does not apply if you have finished the recommended period of isolation.

3. Are you unwell today in any way?
4. Have you had new symptoms of COVID-19 infection or tested positive for COVID-19 in the last 28 days?
5. Are you being investigated or do you have a serious disability or have you had a deterioration following prolonged COVID-19 symptoms?
6. Do you have any allergies? Are you allergic to polyethylene glycol (PEG)?
7. Have you ever had an anaphylactic reaction that is unexplained, or anaphylaxis to several different medicines?
8. Did you experience a bumpy itchy skin rash (hives) after your first COVID-19 vaccine?
9. Have you received any vaccine in the last 7 days?
10. Do you have a condition or receive treatment that severely affects your immune system?
11. Are you pregnant or could you be pregnant? Are you breast feeding?
12. Do you have a bleeding disorder or are you taking any blood thinners?

If the answer to any question is ‘Yes’ it’s important you tell the nurse. If you don’t understand any of the questions or have a question to ask please ask the nurse. The nurse will tell you which vaccine is being used and will answer any questions you may have.

If you are a health or social care worker let the nurse know.

After your immunisation you will be given information on aftercare and a small vaccine card - please keep these safe so you can look at them later. Make a note of the date of your second appointment, and bring the vaccine card with you. Remember you need two doses for the best protection.

You must still follow all local or government advice to protect those around you even after you have received a COVID-19 vaccine. This includes social distancing, wearing a face mask and hand hygiene.
